JDMC centre organised a skill enhancement on Financial Literacy for its students. The distinguished faculty Dr Shikha Gupta, a SEBI Smart Trainer familiarised the students about Basics of Investments and Depositories, Capital Market and Smart Investor Strategies, Digital Financial Services and Mutual Funds. The workshop encouraged the students with skills to develop financial independence.

3- CAREER COUNSELLING SESSION- 7/10/2024 50+ participants

The centre believes in the philosophy of providing different learning opportunities to its students. The centre has been collaborating with various organizations to provide information regarding careers in government jobs, how to write a C V, how to prepare for competitive examinations. The centre has been organizing these sessions in collaboration with TIME for the benefit of its students. The NCWEB Teaching Centre of JDMC organised an online

seminar on government jobs in collaboration with TIME Institute for the benefit of its students. Ms. Tarannum Raza served as the resource person for the online seminar.

4- SKILL TRAINING IN DATA- ANALYTICS, AI, PYTHON FROM LLF- JULY 2024- 300+ Participants

The Non-Collegiate Women's Education Board teaching centre at Janki Devi Memorial College has been collaborating with Learning Links Foundation and Dell Technologies since July 2023 under Women in Data Program and Python and AI. The program provides the students with a certificate from DELL Technology.

The LLF introduced Python and AI course from July 2024 for the benefit of our students. NCWEB students too are availing of this wonderful opportunity to further enhance their skills in AI. Under this program LLF and DELL jointly organised an event at The Constitution Club of India, New Delhi on 28th of August. The event celebrated the achievements of Women in Technology initiatives that aim to foster gender diversity and inclusivity within the tech sector. The initiative evolved into **Women in AI**, empowering thousands of women in STEM and creating pathways for them to excel in technology roles.

Eight JDMC NCWEB students were selected to present their projects at the summit.

The two projects titled – Natural Disaster Prediction and Alert Project highlighted the importance of AI powered system that predicts natural disasters as this would help in saving lives, prevent economic losses and strengthen disaster management. Ashima Malik, Bushra Qureshi, Vaishali Kapoor, and Menka—third-year NCWEB BA and BCom students—presented the project.

System and AI Booth Image Editing Project highlighted the AI editing tool in a virtual booth. This editing tool would help photographers, social media subscribers and creators. The tool is media friendly and anyone with basic skills can use it. The project presented by Kajal, Khushi Sharma, Muskan Rai, and Richa Sonkar- third-year BA and BCom students at NCWEB, JDMC.
