22 responses

How much was your attendance in this program?

22 responses

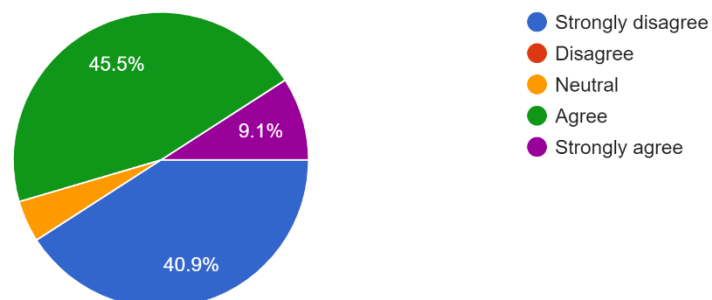

Do you think the paper has been able to develop thinking skills in the students?

22 responses

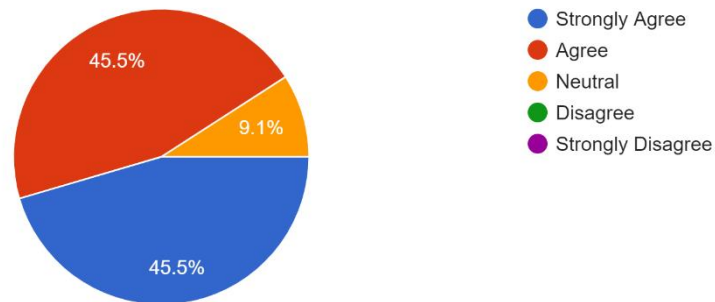

Do you think the paper has trained the students to develop the skills of observation, analysis and evaluation?

22 responses

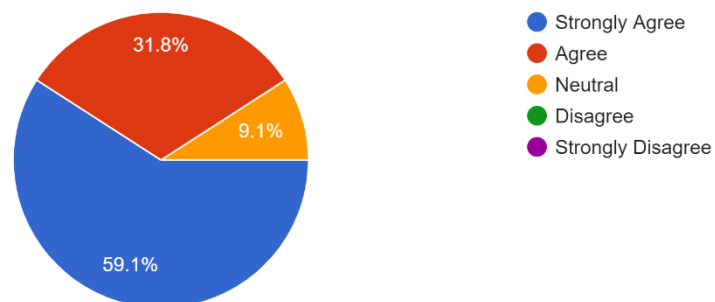

Has the paper aroused your curiosity to explore the subject further?

22 responses

Do you think the course has made the students self-directed, self-monitored and self-corrective through this process of reflective thinking ?

22 responses

ANALYSIS

Based on the graphs we find that there is better attendance amongst the students in the paper. Further majority of the students have benefited from the paper and have been able to develop a self-monitored and reflective thinking.

ACTION TAKEN REPORT

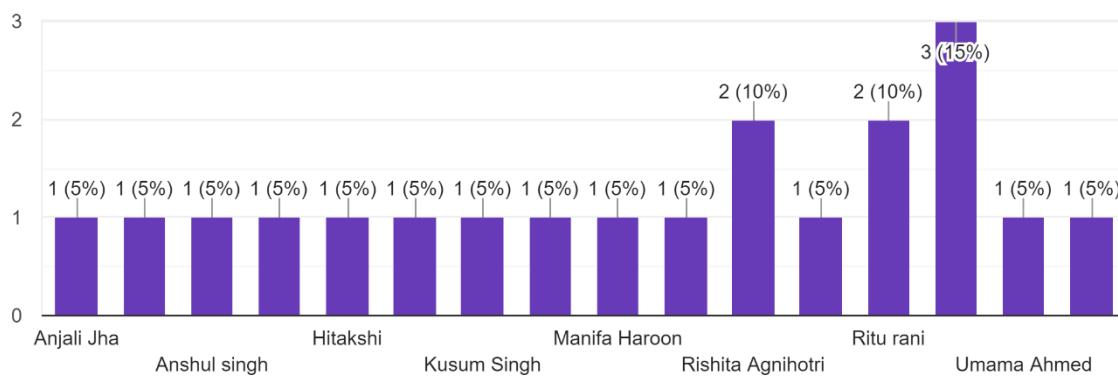

The fact that close to 90% of the class has benefitted from the paper and the process of learning critical thinking shows that students prefer a hand on approach while being taught. Further, they are interested in studying papers that have a practical application. The department will try to offer such papers to encourage interdisciplinarity among the students.
